

Continuing Education
“I haven’t been a teenager in years - Part II”
Presented by: Liz Jimenez, MSW, ASW
Parents Place Post Adoptions Services of Sonoma County

Wednesday, October 2nd at 12:00 to 2:00 pm
This workshop will be held at Classroom A, Los Guilicos

When you consider that the teen years are a period of intense growth, not only physically but intellectually, it's understandable that it's a time of confusion and upheaval.

Despite our many challenges with teens, they are often energetic, idealistic, with a deep interest in being treated fairly. Although it can be a period of conflict, the teen years are also a time to help kids grow into individuals.

This workshop will assist you in exploring your feelings and how, when dealing with our teens, we can sometimes find ourselves struggling with their behaviors. We as the CASA staff cannot encourage you enough to attend this workshop. Ms. Jimenez is a past CASA supervisor and has worked at Valley of the Moon for 10 years. She is now a local therapist working with teens who have difficult histories of abuse, neglect and trauma. We are proud to offer this workshop. See you there!

This class is credited towards your Continuing Education Class hours!

Please RSVP @ 565-6375 or tccasa@sonomacasa.org
